Program Description
Study abroad in the Bahamas! Explore the physical and cultural landscapes of the Bahamas, including geology, marine environments, and culture. Snorkel coral reefs, explore caves, and study coastal and marine processes within a tropical carbonate island environment!

For more information contact Program Director
John Rodgers, jcr100@msstate.edu

Requirements
Students majoring in Geosciences, Landscape Architecture, Archaeology, Biology, and Environmental Programs are strongly encouraged. It is suggested, but not required, that students have taken a course in either World Geography (GR 1123), Physical Geography (GR 1114), or Earth Science (GG 1113).
